DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1,3,4,22,23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Peters (USPN 4,095,544) in view of Zenger (USPN 4,466,553).

Peters discloses the invention substantially as claimed. Peters discloses a bottom (17) a sidewall (19) integral with said bottom, said sidewall comprising a steel substrate (20), a first coating comprising tin (24) on an outer surface thereof and a second unbreached, intact coating (22) comprising tin on an inner surface thereof, said second unbreached, intact coating having a mass per unit area that is at least 0.20 pounds of tin per base box (col. 2 ln. 44), said sidewall further comprising no additional protective coating on said unbreached, intact second coating, Peters discloses said second coating has a mass per unit area that is at least .25 pounds of tin per base box (col. 2 ln. 44), Peters also discloses the second coating (22) is thicker than the first coating (22)(col. 2 lns. 43-45). However Peters does not disclose a top end and a light colored fruit or vegetable.

Zenger teaches a top end (52) and a vegetable (green beans col. 11 ln 46) in the same field of endeavor for the purpose of packaging vegetables.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to add a vegetable and a lid to the container of Peters as taught by Zenger in order to keep vegetables fresh in storage.

With respect to the limitation "a drawn wall ironing process", the method of forming the device is not germane to the issue of patentability of the device itself. Therefore, this limitation has not been given patentable weight.

Response to Arguments

2. Applicant's arguments with respect to claims 1,3,4 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Application/Control Number: 10/706,370 Page 4

Art Unit: 3781

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shawn M. Braden whose telephone number is (571)272-8026. The examiner can normally be reached on Mon-Friday 9-6:30 est.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony Stashick can be reached on (571)272-4561. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
